

## COFACE 2014 Country Risk Conference

*June 05, 2014*

On June 05, 2014 the successful Country Risk Conference 2014 started at Hotel W, Santiago, Chile, with an excellent participation of representatives from the largest domestic and international companies.

Coface General Manager, Louis des Cars, opened the Conference, whose moderator was Libardo Buitrago, a journalist and international analyst.

Former Minister and former presidential pre-candidate Andrés Velasco, Valentín Carril, Chief Economist & Strategic Asset Allocation Head for Latin America from Principal Financial Group and Esteban Jadresic, Chief Economist and Investment Strategist from Moneda Asset Management also participated in the seminar. Coface was represented by Bart Pattyn, President & CEO of Coface Latin America, and Patricia Krause, Coface Economist for Latin America.

Again, MundoChile had the opportunity to provide support with its simultaneous interpretation services during this important meeting and delivering, as usual, the highest quality service.
