

MundoChile Provides Mandarin Chinese Interpreting Services to Suez Energy in its Laja Hydroelectric Plant, 8th Region

*Laja, Chile
December 2011 to March 2012*

Our client Suez Energy, which has commissioned the translation of every procedure and machinery assembly manuals in English and Spanish to our company, has requested MundoChile Mandarin Chinese – Spanish consecutive interpreting services.

MundoChile has made this service available to GDF Suez at the site through a permanent interpreter working and living in Laja, 8th Region. This professional provides fundamental support in the activities planned with expert Chinese technicians who are here to supervise the machinery assembly and erection and to train Chilean personnel.
