

Rebuild Chile Expo: Reconstructing our country
June 15th and 16th, 2010
Espacio Riesco, Santiago

Rebuild Chile Expo (Reconstructing Chile Expo) is an event that was created to display Technology and Support Services for Chile's Recovery and Reconstruction program.

This exhibition, which included technology and support services from the United States, was created to support Chile's Recovery and Reconstruction program and was attended by several prominent figures in the political and economic communities of both Chile and The United States.

MundoChile participated with simultaneous interpretations in the seminar held during the exhibition, making communication of messages possible from senior representatives from the United States who provided valuable insights and support for the honorable cause of rebuilding our country.
