

AN INSPIRING TALK BY YEHUDA BERG IN CHILE

March 27, 2011

Casapiedra

Before an audience of over 500 persons, this famous guru of world leaders, businessmen and recognized celebrities from the stage and screen gave a historic lecture during his first visit to our country.

After a successful tour in Latin America, on March 27 last, Yehuda Berg – a grand master of the Kabbalah and the author of over 30 books on such avant-garde topics as: self-improvement, depression, sex and the Bible – gave a very enlightening talk in Chile.

During his historic conference to this large audience, Berg shared his knowledge and most important messages relating to transcendent philosophy.

Thanks to the support of Interexpo and the Kabbalah Center of Chile, this master of the Kabbalah introduced his audience to such concepts as: consciousness, ego, the role of men and women, responsibility and, if put to good use, we can all become our own agents of global and personal change.

MundoChile is proud to have been able to provide the interpreters to translate his lecture to the Chilean public, with excellent feedback by those attending of its team of interpreters.
