

*Australian company Dingo's mining seminar
"How to Optimize your Mining Assets to Get the Best Performance"*

June 09, 2016
Auscham Offices - Santiago

Dingo, the Australian company and global leader in asset management based on key component conditions and predictive maintenance at mining sites, held, jointly with the Chilean-Australian Chamber of Commerce, the seminar called "How to Optimize your Mining Assets to Get the Best Performance" in Santiago de Chile on June 9, 2016.

This meeting was designed to help participants discover practical and tested ways for a better management of their mining equipment conditions, leading to increase fleet availability, longer useful life, and operating cost reduction. This was a limited and exclusive event for a selected group of executives, leaders in the mining industry.

MundoChile had the opportunity to participate with its professional simultaneous interpreters in the English-Spanish combination to support this important event.
