

Latin American & Caribbean Meetings and Incentives Exhibition

FIEXPO Latinoamérica 2017

June 5th to 7th | Casapiedra, Santiago, Chile

FIEXPO LATINOAMÉRICA is the International Meetings and Incentives Exhibition for the promotion of infrastructure and services in South America, Central America, the Caribbean and Mexico.

This exhibition gathered the primary tourist destinations for meetings, incentive travel and business in one place from June 5th to 7th, 2017, where the participants not only met with the most prominent international "buyers", but also made contact with representatives of continental professional associations whose congresses rotate periodically throughout the continent.

FIEXPO is an exhibition that clearly shows the capacity of Latin America to host international events, internally as well as externally.

MundoChile provided simultaneous interpretation services during all of the conferences of this important meeting, providing, as usual, a top-quality service.
